

I2BC vacancy:

Full-time technical project manager

Research department / Center for Catalysing Innovation in Real-life Environments
(C2ORE)

BSc or Masters degree in Telecommunications engineering, computer sciences, or similar

I2BC is opening a selection process to incorporate a full-time position to its Center for Catalysing innovation in Real-life Environments (C2ORE) at its offices in Málaga (Spain).

I2BC

I2BC is a non-profit organisation created in 2007 by the Ministry of Innovation, Science and Enterprise of the Regional Government of Andalusia, the Vodafone Foundation and the International University of Andalusia. Its main objective is to promote optimum levels of human wellbeing through the innovative use of information and communication technologies. I2BC is focused on the emerging sector called AAL (“Ambient Assisted Living”) responding to people’s needs in the areas of health and wellbeing, active ageing, and independent living.

We are looking for enthusiastic candidates to perform a mixed function of technical project management in national and international projects and, development of ICT solutions in the Ambient Assisted Living field applying human-centered methodologies.

Requirements

Candidates with a BS or MS in Telecommunications, Computer Science, or related field with at least 4 years of demonstrated professional experience qualify for this job.

Languages: Spanish and English

Required skills:

- Capacity to learn and rapidly apply new technical knowledge and methodologies
- Experience working in multidisciplinary environments
- Knowledge on web2.0 and Future Internet related technologies
- Demonstrated programming skills

- Good communication and teamwork skills.
- Experience and knowledge in human-centered design and testing methodologies

To **apply** please send your current CV to Ana García (agarcia@i2bc.es) with the reference “ICT position for C2ORE” by March 26th, 2010.
